

The Leader in Fire-Rated Storage Solutions

FireKing.com

MADE IN THE USA

SINCE 1951

FireKing®, ISO 9001-2015, is the preeminent US manufacturer of fire-safe storage solutions used globally by businesses, governments, and consumers to protect their most valuable physical assets from devastation.

We rigorously test our products to industry standards set by Underwriters Laboratories (UL®) to ensure dependability. Our commitment to quality is such that the FireKing® lab is recognized as UL and Intertek (ETL) testing centers.

When you see the FireKing® Certified shield or the UL or ETL mark, have confidence knowing our industry-leading products are tried and tested to defend and protect the assets entrusted within them.

Trust In FireKing.®

Self-performed lab testing certifies the product meets UL rating standards

UL or Intertek (ETL) certifies the product meets rating standards set by UL

THE IMPORTANCE OF PRODUCT RATINGS

Fire-rating certifies the product can withstand exposure to fire that burns at a specific temperature for a required amount of time while maintaining an internal temperature below 350°F, the flashpoint of paper. Fire-rating certification varies by temperature and ranges between 1/2-hour to 2-hours.

Digital-media rating verifies the product will protect digital-media devices such as hard drives, CDs, DVDs and flash drives from exposure to heat up to 1550°F.

Water-resistant products protect its contents from water damage when exposed to sprinklers or fire-hose spray.

Impact-rating certifies a unit was pulled from the test furnace and immediately dropped 30-feet onto bricks positioned on a concrete base and then reheated for another 30-minutes in the furnace.

UL® Listed High-Security Lock passes rigorous picking, prying and drilling to confirm its professional-grade security.

Visit ul.com and intertek.com for additional testing information.

THE LEADER IN FIRE-RATED FILING CABINETS

FIRE-RESISTANT INSULATION

Gypsum insulation is reinforced with heavy-gauge lattice, creating stronger cage walls

STEEL PANELS

If a panel becomes damaged, it can be easily replaced

FINISH

Environmentally friendly electrostatic powder coating is applied to all sides, including the bottom

INSULATION BETWEEN ALL DRAWERS

Each drawer is as an independently protected compartment

WATER-RESISTANT

Prevents water damage from sprinklers and fire-hose spray

DRAWER PULLS

We offer models with surface mounted and recessed handles

DRAWER LOCKS

All cabinets include standard key locks; some come standard with UL Listed High-Security locks.

E-LOCKS

Available as an add-on for most FireKing® file cabinets; choose one e-lock for the whole cabinet or one per drawer.

TWO POSITION DRAWER CATCH™

Allows access to certain drawers while others remain locked.

FILE-TYPE ACCOMMODATIONS

Turtle® models, Patriot by FireKing® and Lateral cabinet models are all designed to suit both file sizes, all within one cabinet.

CABINET COLORS

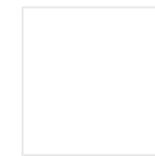

FireKing® filing and storage cabinet models are available in upto eleven color options.

Contact Customer Service to request color samples or to discuss your custom* options and visit us online to see product visuals for each color.

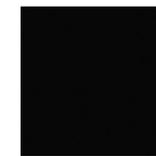

See product family sections for specific color availability.

DESIGNER FINISHES

Fire-rated storage has never looked so good! Choose a premium Designer Finish for select FireKing® filing cabinet models including Classic Vertical, Turtle®, FireKing 25®, Single- Drawer, and Classic Lateral.

ACCESSORIES

Tailor filing cabinets to meet your needs!

CASTERS

Make your file cabinet mobile.

CROSS TRAYS

Horizontal or vertical, trays sit on standard file drawers and are great for storing small items.

INNER DRAWER

Add a smooth operating, factory-installed, smaller drawer with glide rails inside the standard file drawer.

DOCUMENT INSERTS

Opt for document inserts for a convenient way to file various-sized documents; choose a top inside drawer (factory installed) or section inserts with 1 to 6 sections.

*See all lock options and UL security ratings at back of catalog.

**Not available on Turtle®, Patriot by FireKing® or FireShield® models.

***Not available on the Patriot by FireKing® models.

Color and Designer Finish samples above are not an exact match and will vary by printer / screen display.

*Color matching will likely increase product cost. **Accessories are not available on all filing cabinets.

FireKing® FILING CABINETS

FireKing® Lateral File Cabinets

Lateral cabinets have big storage capacity and allow for great visibility and quick access to files. The design requires less pull-out space and accommodates both letter and legal file sizes. Add these functional benefits to its UL fire-rating and you have the ultimate mass-file storage solution. Choose the width and number of drawers.

Available in all colors and Designer Finishes.
